

Fixed Canopy Metal Awnings

Ideal for protecting entry ways, windows or patios.

Fixed Canopy Metal Awnings provide an attractive affordable shelter to the damage caused by Australia's harsh climate.

Produced from multi-rib cross-section Tru-steel panels, its rigid strength provides greater wind resistance and protection against hail and storm damage*.

With our large range of Colorbond colours to choose from and the ability to mix and match panels, you can create a unique look suited to both domestic and commercial applications.

**Please note: Fixed Canopy Metal Awnings are not completely weatherproof.*

ATTRACTIVE AFFORDABLE SHELTER THAT COMPLEMENTS THE HOME.

Self supporting arms or post supports available & in a range of colours.

Features & Benefits

- Wide colour range: With our range of Colorbond colours to choose from and the ability to mix and match panels, you can create a unique look for your home.
- Durable components: Colorbond steel components and Tru-steel panels ensure a robust and long lasting awning.
- Long lasting and low maintenance: Ideal to protect entry ways or patios from the elements.
- Two types of side styles: Available with standard straight side trim panel or decorative scalloped closed sides.
