

Folding Arm Awnings

Create a cool, shady outdoor area with a Folding Arm Awning.

Folding Arm Awnings are retractable awnings that provide a fashionable extension of your shaded living area. Heavy-duty retractable arms mean the awning can be installed with a projection of up to 3.6 metres without the need for post supports. By joining the profiles in a series, Folding Arm Awnings can span up to 18 metres in width. When not required, the fabric awning can be rolled discreetly out of sight, leaving no unsightly structures.

Available in a wide range of fabrics and colours, operation is simple, with options including manual crank or motorisation. Folding Arm Awnings can also be installed with an easy to use pitch control, giving you the adjustments needed to maintain optimum sun protection.

MOTORISATION: THE ULTIMATE MODERN LIVING.

Easily control your awning by remote or smart device.

Features & Benefits

- **Durable fabrics:** Many of the fabrics we use are manufactured in Australia to suit local conditions. You can have confidence in knowing they will look great on your home for many years.
- **Choice of controls:** You can choose between manual crank or motorised operation with your choice of remote control or solid wired.
- **Adjustable pitch:** Your awning can be manufactured with adjustable pitch controls. This feature allows you to change the angle of your awning to provide the level of shade and rain protection you require at any given time.
- **Intelligent heat & wind sensors:** Let the wind and weather control when to unfurl or retract your awning with this optional automatic enhancement.

Somfy Motorisation

- Enjoy the experience of controlling your awning with a Somfy powered solution such as your smart phone.
- Control all your solutions at once including your folding arm awning. Available in 1, 2 and 5 channel versions to control one or multiple products

Acmeda Motorisation

- The Automate Pulse 2 App enables sophisticated shade control straight from any iOS or Android smart phone or tablet.
- Automate® Push 15 series features tactile easy button control, lighting up at the press, while also offering favourite position and group channel options.
