

# Sheer Elegance

## A unique design that combines transparent & opaque fabrics.

Sheer Elegance Blinds are a versatile alternative to traditional Venetian and Roller Blinds. This revolutionary blind is crafted from lightweight sheer fabrics that combine opaque and transparent strips to form a double layered blind.

The unique design of Sheer Elegance Blinds allows the layers to move between varying levels of light control and privacy so you can completely close them or open them to allow a view between the strips.

Available in a variety of fashion colours, Sheer Elegance Blinds help soften daylight by reducing glare and light entering the room.

Sheer Elegance Blinds can also be raised or lowered to the desired height in the window just like Roller Blinds.
